PROFESSIONAL SUMMARY

2026 Computer Science and Artificial Intelligence graduate and Junior Backend .NET Developer with hands-on experience building ASP.NET Core MVC and Web API applications using C#, EF Core, and SQL Server. Built secure, role-based systems with REST APIs, authentication, automated testing, and database-driven workflows, and completed a paid ASP.NET Core troubleshooting project with a verified 5-star client rating.

EDUCATION & LANGUAGES

B.Sc. in Computer Science and Artificial Intelligence | Assiut National University | GPA: 3.16 | Graduated 2026

Languages: Arabic (Native) | English (Good working proficiency) | Military Status: Exempt

EXPERIENCE & LEADERSHIP

Paid ASP.NET Core Troubleshooting Project - Khamsat | July 2026

- Diagnosed and resolved an ASP.NET Core application issue for a paid client, delivered the fix successfully, and earned a verified 5-star review.

Student Union Leadership - Assiut National University | 2022-2026

- Led university-wide student teams and was recognized for leadership achievements. Previously served as Faculty Student Union President (2022-2023), leading the union recognized as the Best Faculty Student Union in Assiut.

PROJECTS

University Admission System | Graduation Project (Team of 4) | ASP.NET Core MVC | C# | EF Core | SQL Server | June 2026

GitHub: github.com/3ab3al11/University-Admission-System

- Built a secure, bilingual admission platform supporting Excel imports, student verification, preference submission, and deterministic college allocation.
- Implemented role-based access, eligibility and capacity rules, transactional batch processing for up to 5,000 records, and 129 xUnit tests.

E-Commerce Platform | Individual Project | ASP.NET Core MVC & REST API | C# | EF Core | SQL Server | Aug 2026

GitHub: github.com/3ab3al11/E-Commerce-Platform

- Built separate .NET 9 MVC and REST API applications covering catalog CRUD, shopping carts, checkout, inventory, orders, filtering, pagination, and image uploads.
- Implemented ASP.NET Core Identity, JWT authentication with refresh tokens, role-based authorization, email and OTP flows, Stripe Checkout, promotional codes, asynchronous EF Core operations, and OpenAPI/Scalar documentation.

Football Field Booking System | Team Project (2 Developers) | ASP.NET Core MVC | C# | EF Core | SQLite | Jan 2025

GitHub: github.com/3ab3al11/Football-Field-Booking-System

- Built a two-role booking system with availability checks, 10-minute reservation holds, simulated payments, refunds, and reminders.
- Implemented conflict detection, booking validation, status transitions, and CSRF protection across write operations.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core MVC, ASP.NET Core Web API, REST APIs, DTOs, Middleware, Global Exception Handling, Validation, Logging, LINQ, Async/Await.

Databases & SQL: SQL Server, SQLite, EF Core, EF Core Migrations, Fluent API, Dapper, ADO.NET, T-SQL, Database Design, Joins, Stored Procedures, Transactions, Indexes.

Architecture: N-Tier Architecture, MVC Pattern, Separation of Concerns (SoC), Inversion of Control (IoC), Dependency Injection.

Design Principles & Patterns: OOP, SOLID Principles, Repository Design Pattern, Generic Repository, Unit of Work, Singleton Design Pattern, Observer Pattern.

Security: ASP.NET Core Identity, JWT, Role-Based Authorization, CORS.

Testing: Unit Testing, xUnit, Moq, Mocking, Parameterized Tests, ASP.NET Core Controller Testing, Swagger, Postman.

Frontend & Tools: HTML5, CSS Fundamentals, Bootstrap, AJAX, Git, GitHub.

AI-Assisted Development: ChatGPT, Cursor, and Claude for research, debugging, code review, testing, and documentation; outputs independently reviewed and validated.

COURSES & TRAINING

Training: Back-End .NET - Eraa Soft (2025) | PHP & WordPress - ITI (2024) | Front-End - ITI (2023)
